Preliminary Assessment Summary

CAD980818926
Victoria Golf Course
340 East 192nd St.
Carson, CA 90746

June 1984

Preparer: Erich Linse
Toxic Substances Control Division

Problem

Victoria Golf Course has been developed atop a former landfill which is known to have been used for disposal of hazardous wastes during the years 1948 through 1959.

Because the site is known to have received hazardous wastes, the City of Carson requested from California's "Property Evaluation Unit" a determination as to whether the land is "hazardous waste property." A determination has not yet been made, but extensive historical documentation has been collected.

Recommendation

Since the site is being investigated by the state's "property evaluation unit" and since the evidence collected so far is inconclusive, pending status is recommended.
